

AUSVANTAGE ERP

ERP SOLUTIONS | DATABASES | UNIWARE CLOUD | SERVICES

Uniware provides SMEs in the Supply Chain, Manufacturing and Services sectors with ERP/CRM/BI solutions to manage business processes.

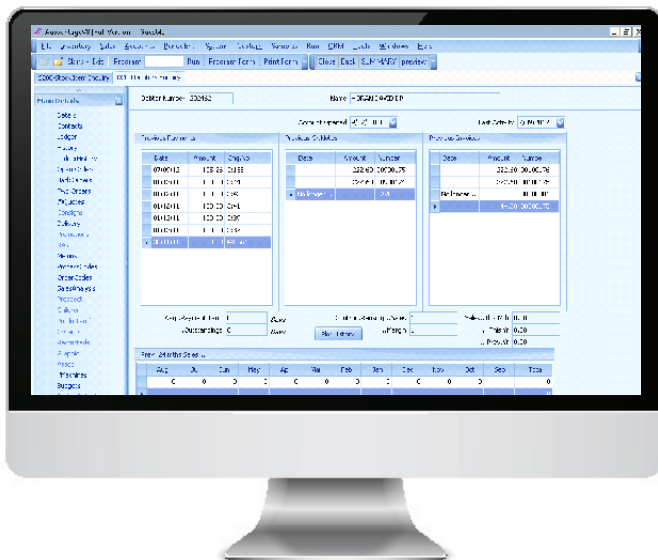

With added value services such as IT Infrastructure, Web Services and e-Commerce, Uniware is an end-to-end IT source satisfying our client's needs to enhance enterprise productivity, mitigate commercial risk and reduce capital expenditure.

AUSVANTAGE - AT A GLANCE

An end to end ERP solution- AusVantage is an integrated Business Management System catering for Accounting, Supply chain, Manufacturing, Hire, Service Management, CRM and e-Commerce functions. AusVantage enables organisations to make accurate & informed decisions to enhance business process productivity & profitability.

Financial Management – the backbone of AusVantage, providing an integrated suite of accounting modules designed for Australian business conditions. Increasing work task efficiency and accuracy of reporting in General ledger, payables, receivables and assets. Full support for multiple currencies, companies, divisions profit centres and reporting levels for easy consolidation of financials. Featuring full drill down capability and integrated Business Intelligence suite with no need for 3rd party analysis tools.

Supply Chain Management - The sharp end of AusVantage improves customer service levels, streamlining operational processes such as importing, exporting, distribution, warehouse and manufacturing functions. Versatile sales order processing, advanced inventory management, automated importing functions and flexible warehousing management tools will drive your productivity. Advanced technologies such as BI/reporting to monitor your replenishment and demand planning. Mobility integration with PDA - order management and RFID/Barcode scanning for warehouse and manufacturing operations.

Uniware provides SME's in the Supply chain, Manufacturing and Services sectors with ERP solutions to manage business processes. Provides a consistent view of information across the enterprise, it is a fully featured CRM system enabling all contacts to be recorded and actions to be triggered for relevant lead process. Also campaign driven with Microsoft Word, email and fax integration for direct mail or e-marketing use.

Testimonials

Lyppard
Australia Pty Ltd

Brian Oakley (Managing Director)
Lyppard Australia

“We have a fairly dynamic operation, with over 23,000 product lines and in excess of 500 orders a day and until recently, a headache of a whole lot of paperwork. The difference has been that Uniware’s bar-coding has enabled us to make a quantum leap to a paperless system”

Advanced
LIGHTING TECHNOLOGIES

Richard Langdon (Managing Director)
Advanced Lighting Technologies

“Before AusVantage CRM and ClearConnect we had no way of knowing how much time our sales reps were spending creating lighting designs that were never going to be converted into sales. Now with AusVantage we can easily ascertain which customers are integral to our business and which are non profitable customers and our reps can prioritise their time accordingly. AusVantage time tracking tool has had a direct positive impact on overall company profitability.”
